

DelegateBottone

```
classDiagram
    DelegateEliminazione --|> DelegateBottone
    DelegateModifica --|> DelegateBottone
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'DelegateBottone'. Below it are two boxes: 'DelegateEliminazione' on the left and 'DelegateModifica' on the right. An arrow points from 'DelegateEliminazione' to 'DelegateBottone', and another arrow points from 'DelegateModifica' to 'DelegateBottone', indicating that both subclasses inherit from the base class.

DelegateEliminazione

DelegateModifica
